4-year Token Time Release Schedule:

Here is the Time Release Schedule for the GREENBTC (GBTC) ERC20 token.

1. **Token Details**: GREENBTC (GBTC). Its main purpose being to incentivize environmentally friendly practices. The total token supply being **9,000,000,000**.

- 2. **Initial Distribution **: 10% of the total supply being 900,000,000 GREENBTC (GBTC) will be available at token launch for initial distribution.
- **Vesting Period**: The remaining 90% of the total supply being 8,100,000,000 GREENBTC (GBTC), will be released gradually over a period of 4 years.
- **Release Schedule**: The 8,100,000,000 GREENBTC (GBTC) will be released in equal quarterly instalments over the 4-year period. This means 2,025,000,000 GREENBTC (GBTC) will be released every quarter (yearly).

3. **Smart Contract Implementation**:

A smart contract will be created to manage the Time Release Schedule.

The contract will have functions to release the scheduled tokens at the end of each quarter.

Tokens will be distributed automatically to designated addresses based on the release schedule.

4. **Token Utility**:

Holders of GREENBTC (GBTC) can use them for various environmentally friendly activities such as carbon offset projects, renewable energy investments, or sustainable product purchases.

The gradual release of tokens incentivizes long-term holding and active participation in green initiatives.

5. **Monitoring and Transparency**:

The smart contract and token distribution can be monitored on the blockchain for transparency.

Regular updates can be provided to the community on token release schedules and utilization.

6. **Community Feedback and Adaptation**:

Feedback from ECOBIOTOS™ community members will be taken into account for any necessary adjustments to the Time Release Schedule.

The schedule can be adapted based on the project's progress, market conditions, and community needs.

Implementing a Time Release Schedule for GREENBTC (GBTC), ensures a steady and controlled token release, incentivize long-term holding, and maintain transparency and community engagement throughout the process.

Summary:

The total token supply is 9,000,000,000.

Initial Distribution:

10% of the total supply being 900,000,000 GREENBTC (GBTC) will be available at token launch.

- **Vesting Period**: The remaining 90% of the total supply being 8,100,000,000 GREENBTC (GBTC), will be released gradually over a period of 4 years.
- **Release Schedule**: The 8,100,000,000 GREENBTC (GBTC) will be released in equal quarterly instalments over the 4-year period. This means 2,025,000,000 GREENBTC (GBTC) will be released every quarter (yearly).

History & progression

Feb 2020

Global Warming/Climate Action UK summit.

Presentation of MLGM's new green economy.

Specific introduction of our 'Green Economy' with Digital blockchain funding.

Nov 2020. Continued funding of UNSDG initiatives by way of MaxLife Global Management's BITCOIN (BTC) environment investment fund. Total funded amount £70 million.

SEPT 2023

GREENBTC (GBTC) ERC 20 token created on the Ethereum network.

Jan 2024

THE ECOBIOTOS™ NETWORK.

New community launch. Website and software development.

Nov 2024.

'MLM on the Blockchain' marketing model.

Research and development, smart contract.

Feb 2025

GREENBTC (GBTC) token private sale begins...

March 2025

Launch **ECOWEALTH™** (MLM on the Blockchain) **marketing model.**

March 2025

Social media: Target of 1000 Twitter(X) followers and 1000 Telegram members.

Promote **ECOWEALTH™** (MLM on the Blockchain) income opportunity.

Ongoing website development.

April 2025

Celebrity marketing.

Partnerships and sponsorships.

Ads and Charts.

Exchange listings.

5,000 Telegram members, 3,000 Twitter followers.

Promote **ECOWEALTH™** (MLM on the Blockchain) income opportunity.

April 2025...onwards

In this time period our Intelligent and talented community member's will continue

promoting THE ECOBIOTOS™ NETWORK, GREENBTC (GBTC), and **ECOWEALTH™** (MLM on the Blockchain) income opportunity.

Engage with community to get feedback plus votes from the ECOBIOTOS™

NETWORK members regarding project funding, selection, and the *ECOWEALTH™*(MLM on the Blockchain) income opportunity.

GREENBTC (GBTC) to pursue listings on DEX and CEX exchanges.

Promote the Carbon Offsetting service, purchased using GREENBTC (GBTC)

Promote THE ECOBIOTOS™ NETWORK. Memberships purchased using GREENBTC (GBTC)

Launch our member's only community platform (website).

Launch our member's only business directory platform (website).

4-year plan summary:

Here we outline key strategies and milestones for the success of GREENBTC (GBTC) over the next four years:

**Year 1: Building the Foundation *

- 1. **Token Launch and Distribution:** Launch the GREENBTC (GBTC) token through a fair and transparent distribution process (A Fair Launch DeFi token), ensuring wide access to potential members, investors, and users.
- 2. **Partnerships and Collaborations:** Establish partnerships with eco-friendly businesses, sustainable projects, and environmental organizations to enhance the token's credibility and utility.
- 3. **Community Building:** Focus on building a strong and engaged community through social media, forums, and events to create awareness and drive adoption.
- 4. **Listing on Exchanges:** Secure listings on major cryptocurrency exchanges to increase liquidity and accessibility for investors and traders.

**Year 2: Ecosystem Development **

- 1. **Eco-Friendly Projects:** Allocate funds for investing in and supporting sustainable projects that align with the token's environmental goals.
- 2. **Carbon Offset Integration:** Integrate carbon offset mechanisms into the token ecosystem, allowing users to offset their carbon footprint through GBTC transactions.

- 3. **Education and Awareness:** Launch educational campaigns and initiatives to raise awareness about environmental issues and the role of blockchain technology in sustainability.
- 4. **Governance Model:** Implement a decentralized governance model that empowers token holders to participate in decision-making processes and vote on key proposals.

**Year 3: Expansion and Adoption **

- 1. **Global Outreach:** Expand the token's reach to new markets and regions by partnering with local organizations and businesses that share the same environmental values.
- 2. **Merchant Adoption:** Encourage merchants and e-commerce platforms to accept GREENBTC (GBTC) as a form of payment, promoting eco-friendly transactions.
- 3. **Regulatory Compliance:** Ensure compliance with relevant regulations and standards to build trust and credibility within the industry.

**Year 4: Innovation and Sustainability **

- 1. **Research and Development:** Invest in research and development to explore new technologies and innovations that can further enhance the token's sustainability features.
- 2. **Carbon Negative Initiatives:** Launch initiatives to go beyond carbon neutrality and achieve carbon negativity
